Education

- **MSc, Data & Web Science** (2022–2025)
Aristotle University of Thessaloniki
School of Informatics
- **BSc, Applied Informatics** (2017–2022)
University of Macedonia
Department of Applied Informatics

Languages

- English (C2)
- Greek (Native)

Skills

Languages	<C#> <Java> <Python>
Frameworks	<.NET Core> <Spring> <Django>
Databases	<PostgreSQL> <MySQL>
Orchestration	<Docker> <Kubernetes>
CI/CD	<Azure> <GitLab>
QA Testing	<Robot Framework>
Data Processing	<Apache Spark>

Military service completed

KONSTANTINOS A. RAZGKELIS

Senior Software Engineer

Professional Summary

Software engineer with more than four years of experience across backend, mobile, and test automation. Experience includes end-to-end decoupling of monoliths into microservices, building web and mobile products. Proficient in Django, Spring Boot, and .NET Core/MAUI, with practical experience in designing APIs, data models and delivering well-tested code through CI/CD. Project work includes mobile operations apps, CRM modules, ERP test automation, and AI-driven data quality services. Aiming to grow into building cloud-based platforms and modern backends, with a focus on distributed services, orchestration, and automated delivery.

Experience

Senior Software Engineer - Onelity

01/2022 - Present

- **Project 6 — Mobile Elevator Operations App:** Developed backend services and contributed mobile features to a cross-platform app designed to optimize elevator usage at the World Trade Center. Worked as backend and mobile developer in a team of 6 people.

<.NET Core> <MAUI>

- **Project 5 — Mobile e-Commerce:** Designed and delivered a mobile e-commerce app for a power tools and garden equipment manufacturer. Backend and mobile developer in a team of 4 people.

<.NET Core> <MAUI>

- **Project 4 — TechSaloniki Web App:** Developed and maintained the digital platform of the TechSaloniki technology event. Worked independently as the sole backend developer.

<.NET Core>

- **Project 3 — CRM Web App :** Built enterprise management tool to support internal organizational operations. Worked as a backend developer in a team of 10 people.

<.NET Core> <React>

- **Project 2 — Test Automation Framework:** Initiated the automation framework project to replace manual transaction testing for SAP S/4HANA systems at an automotive supplier, and scaled it up to a team of 4 developers. Contributed as test automation developer.

<Playwright> <Robot Framework>

- **Project 1 — AI-Powered Platform:** Built and maintained web application focused on improving data quality of master-data with AI-driven models. Served as a backend developer in a international team of 7 people.

<Django> <React>

Certifications

- **ISTQB Foundation Level - (2023)**

About me

I am a semi-professional volleyball player with experience competing nationally and internationally, from elite academies to university teams and official league competitions ([myvolleyballcareer](#)). These opportunities have strengthened my adaptability, discipline, and reliability both on and off the court.

Beyond volleyball, I'm passionate about travel and adventure, holding a skipper certification that reflects my love for exploration and leadership. I thrive in dynamic environments that challenge me to grow, perform at my best, and develop new skills.
